

National Testing Resources

These are resources available across the country. Most chapters have at least one of these in their area. Testing is free, and information is pulled directly from the location website. You should still call ahead to confirm details.

CVS

Cost: Insured Patients: "Patients with insurance should not have any out-of-pocket costs for a covered COVID-19 test, but you should check with your health plan to confirm before scheduling a test."

Uninsured Patients: "If you do not have insurance, we will ask you for your Social Security number (card not needed), driver's license or state ID to submit the cost of your test to the federal program for the uninsured. If you do not have insurance and are using the federal program for the uninsured to cover your COVID-19 test, the in-clinic visit will be covered at no additional cost to you; however, any additional point of care lab testing will not be covered under the uninsured fund."

Appointments and Scheduling: "Every individual who wants a test must make an appointment online...Appointments can be made for the same day and up to thirteen days in advance (depending on availability)." Schedule your test and find a complete list of locations near you (many chapters have several nearby locations) on the [Minute Clinic Website](#).

Types of Tests: CVS offers different types of tests depending on location, and they will be listed when you make your appointment. "MinuteClinic uses multiple types of COVID-19 testing to check for active infection. Most rapid-result testing locations perform antigen testing. Limited rapid-result locations and all drive-thru lab testing locations perform PCR/NAAT testing."

Walgreens

Cost: "Free COVID-19 testing is available to patients ages 3+. If you receive a Diagnostic Test and have insurance, you will be asked to show your insurance card at the appointment and the lab may bill your insurer. You will not receive a bill from Walgreens or from any lab partner. State and federal programs may also provide free testing in your area."

Appointments and Scheduling: Testing at Walgreens is by appointment only. Make appointments on the [Walgreens Website](#).

Types of Tests: Walgreens offers different types of tests depending on location. Diagnostic Lab Tests (PCR), Rapid Diagnostic Tests, and Rapid Antigen Tests. The type of test you will receive will be listed when you make your appointment.

Center for COVID Control

Cost: Testing is always free. "Please bring your ID and insurance card (if you have one). If you are uninsured, the tests are still free. If you hold a foreign passport, please bring that (don't worry, your test is also free)."

Appointments and Scheduling: "No appointments are necessary for any of our locations. Just drive up or walk up depending on the location."

Types of Tests: "Center for COVID Control uses RT-PCR (Reverse Transcript PCR) analyzers for our COVID-19 testing. We chose this technology for its accuracy and reliability. RT-PCR tests are accepted as the 'gold standard' of Pre-Travel COVID testing. We also offer rapid antigen testing."

Rite Aid

Cost: "All Rite Aid administered COVID-19 tests are free and available to ages 4+"

Appointments & Scheduling: "you must have an appointment to get a test. Learn more about COVID-19 testing and schedule your test [here](#)."

Types of Tests: Varies, Results take up to 2-5 days, so this is a better option for post-visit testing than pre-visit testing

Baylor University

YesNoCovid

Address: Richland Mall JC Penney Parking Lot 6001 W Waco Dr Waco, TX 76710

Hours: Monday-Sunday 8AM-6PM
